FOGOOSE / PROCUREMENT REFERENCE

FG-1116 | 750ml Dusk Tea-Strainer Handle Tumbler

Configuration reference. Measurements and materials below describe the stated catalogue body or supplied drawing. Cup, lid, finish and packaging must be agreed for the order.

Capacity / stated version

750ml nominal capacity.

Inner body material

Stainless steel. Request the exact inner-wall and base material specification and matching documents for the selected sample.

Outer body material

Stainless steel. Confirm the exterior grade, finish and decoration process for the selected sample.

Dimensions

Illustrated reference height: 24.6cm; top width: 8.4cm; base width: 7.2cm. Confirm whether the height includes lid and drinking tube. A decorated charm version shows a 13.2 x 9.1 x 25.2cm retail box and a 68.5 x 38 x 52.5cm master carton with 40 units; confirm packing for the selected version.

Confirm with your quotation

Selected lid, straw, seals and accessories; final decorated measurements and packing; care and performance checks; applicable report/model scope; quantity per colour, MOQ, sample charges, production after approval and freight.
